Notice, Addendum to Campaign Constitution and Expense Report and Request for Waiver

Secretary Heller,

I am 24 years old. I do not know what the word "dollar" and or "$" means as used on your form. Members of the Independent American Party have asked you what the word "dollar" and/or "$" means many times and you have refused. I have intentionally filed this report late so that if you try to place a civil penalty against me and have to attempt to enforce it through legal proceedings that I may be able to find out what "dollar" and/or "$" means when you are placed under oath.

This is also a request for a Waiver of the Civil Penalty since I do not know what "dollar" and/or "$" means and you have refused to answer the questions about this it caused me to be late in an attempt to find out what the form means.

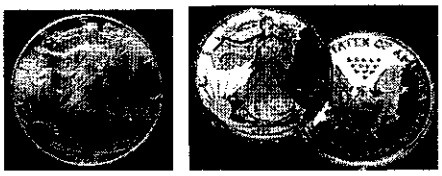
If you do not want to answer the question about what a "dollar" and/or "$" is in court I guess that could be "good cause" also. So if you waive the civil penalty or fail to attempt to collect the civil penalty I will understand that you also consider the form you made up is void for vagueness since you do not know what "dollar" and/or "$" means and that is why you refuse to answer the question.

I crossed out the affirmation section of the form (attached) as an affirmation would be a violation of my religious beliefs. Please, consider my signature on the attached form as signed under oath and not affirmation which is anti-religion since to swear is to call God as a witness and is a religious act and that is how I must sign such documents and an affirmation is not. The State of Nevada is required by law to have a perfect toleration of my religious sentiment so of course this is and must be acceptable.

I remind you, Secretary Heller, of what you have previously been informed:

The following standards of weights and measures for gold and silver coin minted by the United States are from the government web sites:

http://www.usmint.gov/mint_programs/american_eagles/index.cfm?action=American_Eagle_Silver_Proof
http://www.usmint.gov/mint_programs/american_eagles/index.cfm?action=American_Eagle_Gold_Proof



"The American Eagle Silver Proof Coin contains 99.9% silver. The one ounce coin has a **$1 face value** and is 1.598 inches in diameter, contains 0.999 silver troy ounces and weighs 1.0000 troy ounces."

All American Eagle Gold Proof Coins are **legal-tender** and contain 91.67% (22 kt) gold. The gold weight, and diameter will vary with each coin denomination, as specified below. Each coin is backed by the U.S. Government for weight and content.

- The one ounce coin, **$50 face value**, is 1.287 inches in diameter, contains one gold troy ounce and weighs 1.0909 troy ounces.
- The one-half ounce coin, **$25 face value**, is 1.063 inches in diameter, contains 0.5000 gold troy ounces and weighs 0.5455 troy ounces.
- The one-quarter once coin, **$10 face value**, is 0.866 inches in diameter, contains 0.2500 gold troy ounces and weighs 0.2727 troy ounces.
- The one-tenth ounce coin, **$5 face value**, is 0.650 inches in diameter, contains 0.1000 gold troy ounces and weighs 0.1091 troy ounces

In Article I, Section. 10. of the United States of American Constitution it proclaims: No State shall enter into any Treaty, Alliance, or Confederation; grant Letters of Marque and Reprisal; coin Money; emit Bills of Credit; **make any Thing but gold and silver Coin a Tender in Payment of Debts**; pass any Bill of Attainder, ex post facto Law, or Law impairing the Obligation of Contracts, or grant any Title of Nobility.

So if "No State shall… make any Thing but gold and silver Coin a Tender in Payment of Debts" and such coins are currently available, then, since these coins have **$50 face value, $25 face value, $10 face value, $5 face value, and $1 face value** what is a "$" if not the standards established by these coins? A Federal Reserve Note is not gold or silver Coin. Currently a United States $1 face value silver coin can be exchanged for approximately 15 single denomination Federal Reserve Notes. **Since I am aware** of the value discrepancy between the $1 silver coin and the $1 Federal Reserve Paper non-redeemable debt note (fiat money) I cannot sign a form that does not declare what is meant by the "$" sign or I would be committing perjury under Nevada statutes.
